

TAHIR MIYA

 Anand Gujarat
 tahir786605@gmail.com

SUMMARY

Motivated Computer Science student seeking an entry-level Software Engineer role. Strong interest in full-stack development and problem-solving, with hands-on experience in building real-world applications using modern technologies.

SKILLS

- Java
- Python
- JavaScript
- HTML
- CSS
- Node.js
- MongoDB
- MySQL
- Git
- GitHub
- VS Code
- OOP
- DBMS
- Operating Systems
- Computer Networks
- REST APIs
- Basic Machine Learning
- Image Processing

EDUCATION

Madhuben & Bhanubhai Patel Institute of Technology, Gujarat
Bachelor of Engineering: Computer Science

- 12th (HSC) – 70.6%
- 10th (SSC) – 70.4%
- GPA: CGPA: 8.82
- Minor in: Internet of things

WEBSITES, PORTFOLIOS, PROFILES

www.linkedin.com/in/tahir-miya-a26089399
github.com/TAHIRDON

ACCOMPLISHMENTS

- Participated in technical events and coding challenges

INTEREST IN SOFTWARE DEVELOPMENT

True

COMFORTABLE WITH NEW TECHNOLOGIES

True

PROJECTS

- **AI-Based Vision-to-Braille Assistive System**, Developed an assistive system to convert visual data into Braille output for visually impaired users. Implemented image processing techniques using OpenCV. Designed a pipeline for converting detected patterns into tactile-readable format. Focused on accessibility and real-world usability.
- **Smart Agro System (Leaf Disease Detection)**, Built a full-stack web application using React and Flask. Integrated machine learning model (.h5) for plant disease detection. Implemented image-based prediction and crop health analysis.
- **Malware Detection System**, Designed a system to identify malicious email content. Implemented filtering and pattern-based detection techniques. Improved system reliability by blocking suspicious inputs.

QUICK LEARNER

True

PERSONAL INFORMATION

- Willing to relocate
- Quick learner with strong interest in software development
- Comfortable working with new technologies and tools
